

cloud installations

Graypants' hand-sculpted lighting installation features a programmable light show, concealed by thousands of ping-pong balls. Each Cloud chandelier is designed to be as unique as the environment in which it hangs, providing a window into the Pacific Northwest.

Static or Dynamic

The Cloud can be illuminated by static or programmable LEDs; allowing the light, shadow, and color to respond elegantly to any dynamic daylight and weather conditions. As a custom lighting installation studio, we've successfully employed this technique in a variety of scenarios ranging from custom residential fixtures to large public installations.

Cloud installation at a private residence, Bahamas

Play with colors, patterns and explore ambiance for any occasion. Smart light technology allows access to the entire color spectrum, giving endless possibilities for creating custom light shows.

DIY or let us help

We love custom projects and would be happy to design a layout tailored specifically for your space. We will work with designers, contractors and subcontractors to help facilitate coordination and make sure technical requirements are met. Contact us about your project!
