Quick Connection

The quick connection system is designed for ease and simplicity, allowing a fast and easy installation. The added benefit of this is that it allows for a seamless design which doesn't detract from the aesthetic of the fitting.

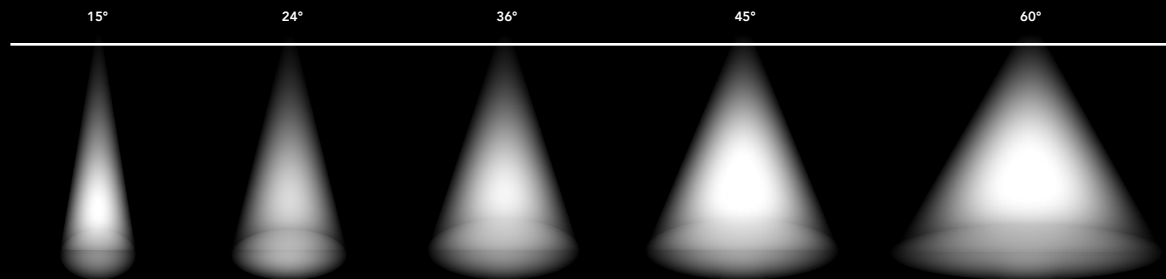

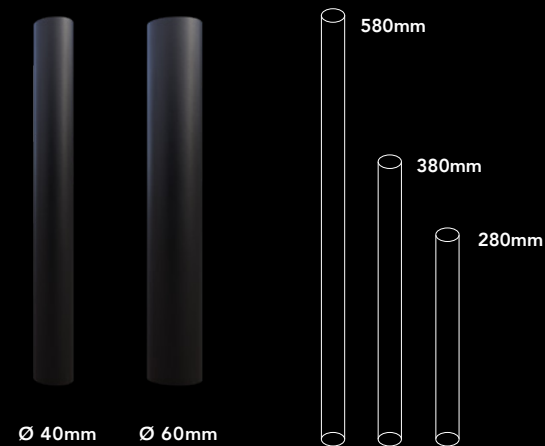

Sophisticated lens technology

The SILO SURFACE features the latest in lens technology, helping to guide virtually every ray of light emitted by the LED. The lens improves the efficiency of the fitting, enhances visual comfort and dramatically reduces glare.

Designed for versatility

The SILO SURFACE series has been strategically designed to produce the best possible light, whilst being durable, sustainable and stylish. Available in various colours and lengths, allowing for perfect accent lighting.

Available in five beam angles
Providing the perfect light for any application.
