CAST SILICON BRONZE RANGE

CAST SILICON BRONZE RANGE

Create drama with longevity and purpose with the Hunza family of cast Silicon Bronze Inground and Recessed fixtures. You can choose from a wide selection of models offering a range of outputs from 600 delivered lumens (6 watts) to 5000 delivered lumens (56 watts).

The Hunza Silicon Bronze range has been designed specifically to perform flawlessly in the most challenging of ground conditions, including soils with high levels of fertiliser, acidity, salt content, or other corrosive elements.

Silicon Bronze is a highly durable copper alloy with a particularly low percentage of zinc, which eliminates its susceptibility to dezincification. This makes Silicon Bronze highly resistant to corrosion and ideal for all commercial and residential applications, in any climate and the ultimate choice for sustainability.

Hunza outdoor fixtures are designed and manufactured in New Zealand using the very best materials and components. We combine this with precision CNC engineering and heavy-grade gaskets to ensure a lifetime of trouble free operation and performance.

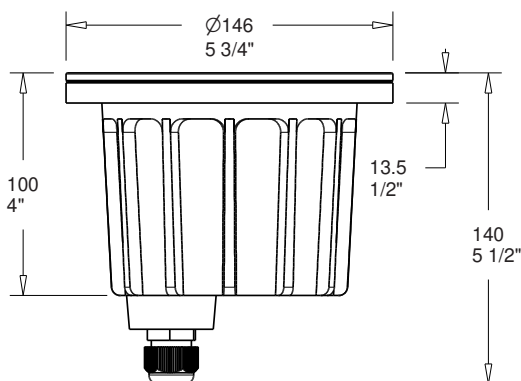

LAWN LITE

LLCSB/L

5

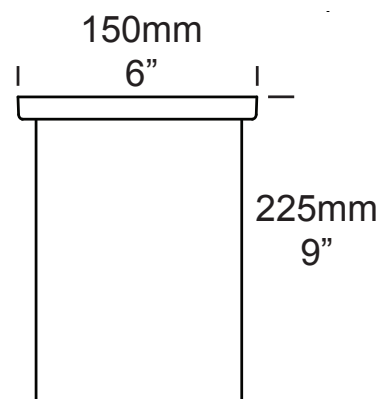

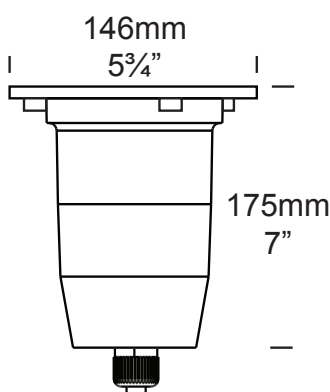

Output	600 lumens @ 1050mA
Lumens Per Watt	100 lumens @ 6 watts
Colour Temperature	2700K, 3000K, 4000K
Beam Angles	15, 25, 38, 60 degrees - With 0-20deg tilt & 360deg rotation
Materials	Solid Bronze body with either 316 Stainless Steel or Bronze flange
Ingress Protection	IP68 *not for use in ponds or pools

SAFETOUCH 50

ST50CSB/DB
ST50CSB/SC

Output	1200 lumens @ 700mA
Lumens Per Watt	100 lumens @ 12 watts
Colour Temperature	2700K, 3000K, 4000K
Beam Angles	15, 25, 38, 60 degrees - With 0-20deg tilt & 360deg rotation
Materials	Solid Bronze body with either 316 Stainless Steel or Bronze flange
Ingress Protection	IP68 *not for use in ponds or pools

NZ MADE

25 Year body warranty

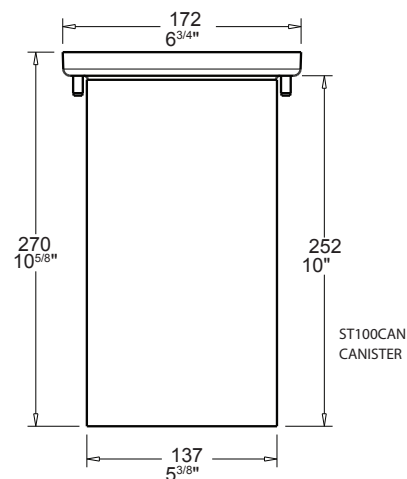

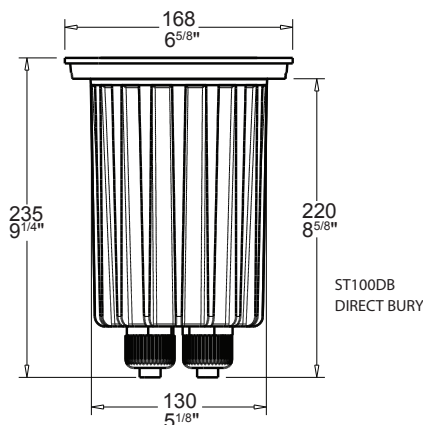

Electronics warranty

SAFETOUCH 100

6

ST100CSB/DB
ST100CSB/SC

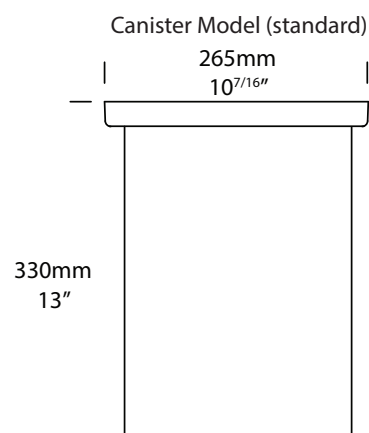

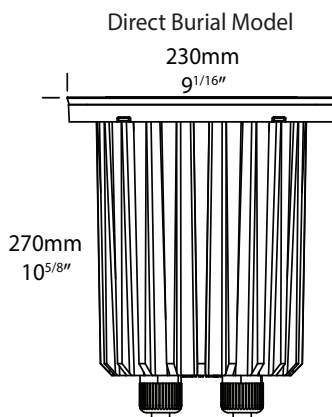

Output	2700 lumens @ 700mA
Lumens Per Watt	100 lumens @ 27 total system watts
Colour Temperature	2700K, 3000K, 4000K
Beam Angles	13, 20, 25, 34 degrees - With 0-20deg tilt & 360deg rotation
Materials	Solid Bronze body with either 316 Stainless Steel or Bronze flange
Ingress Protection	IP68 *not for use in ponds or pools

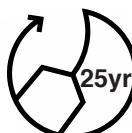

SAFETOUCH 150

ST150CSB/DB
ST150CSB/SC

Output	5000 lumens @ 1400mA
Lumens Per Watt	90 Lumens @ 56 total system watts
Colour Temperature	2700K, 3000K, 4000K
Beam Angles	22, 33, 51 degrees - With 0-20deg tilt & 360deg rotation
Materials	Solid Bronze body with either 316 Stainless Steel or Bronze flange
Ingress Protection	IP68 *not for use in ponds or pools

NZ MADE

25 Year body warranty

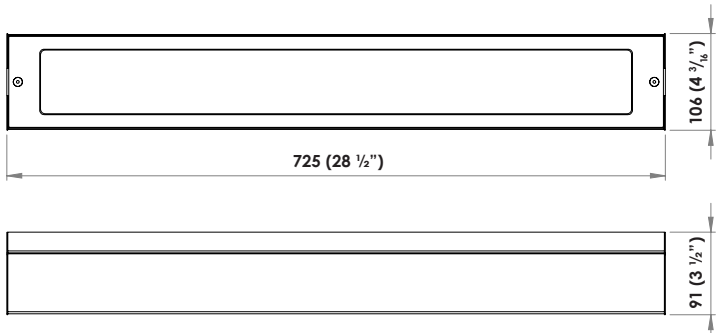

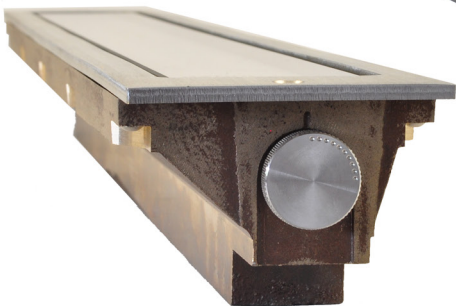

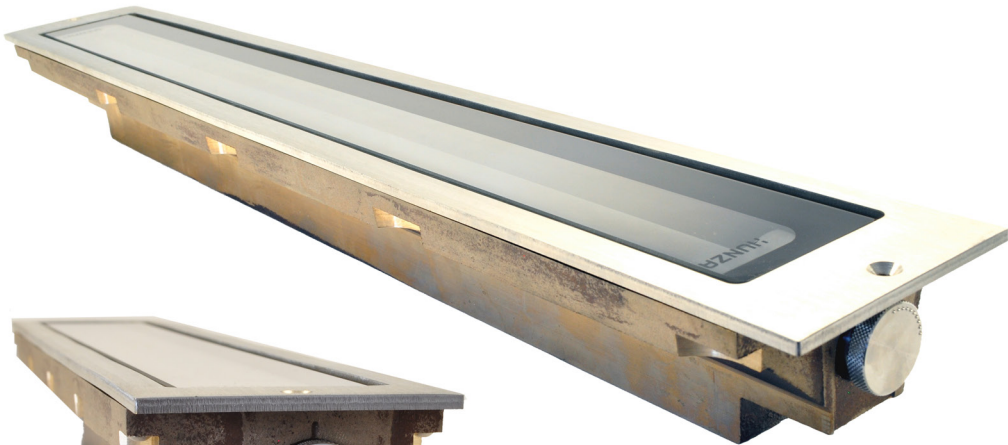

Electronics warranty

ADJUSTABLE LINEAR LITE

ALLCSB/L

Output	1000 Lumens @ 14.4 watts
Lumens Per Watt	70 Lumens @ 14.4 watts
Colour Temperature	3000K, 4000K
Beam Angles	Asymmetric
Materials	Solid Bronze body with either 316 Stainless Steel or Bronze flange
Ingress Protection	IP67

NZ MADE

25 Year body warranty

Electronics warranty
