FLOW PLUS SIDE STRAIGHT ENTRY

⚠ CAUTION Light Fitting Must Be Installed By A Licensed Electrician

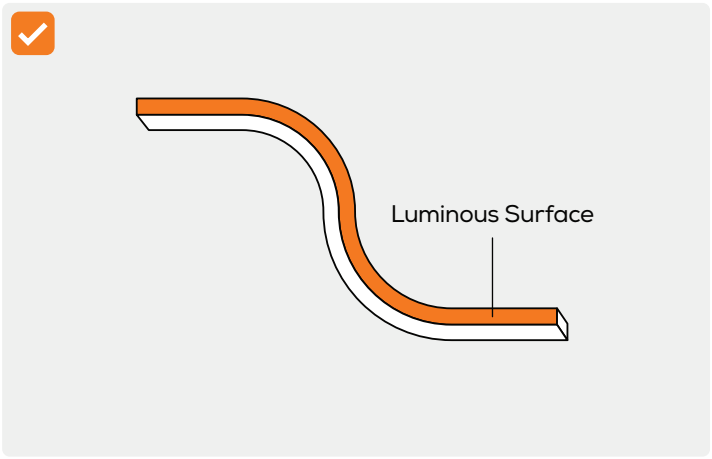
Please ensure to read instructions correctly for the installation of the fitting provided. Failure to do so will result in a void of warranty and compromises the safety of luminaire.

FAZE are not liable for warranties when luminaire is damaged by incorrect installation. The installation of the luminaires must be in accordance with the national safety regulations.

Please refer to FAZE's General Terms & Conditions for more information concerning the installation and warranty of our products.

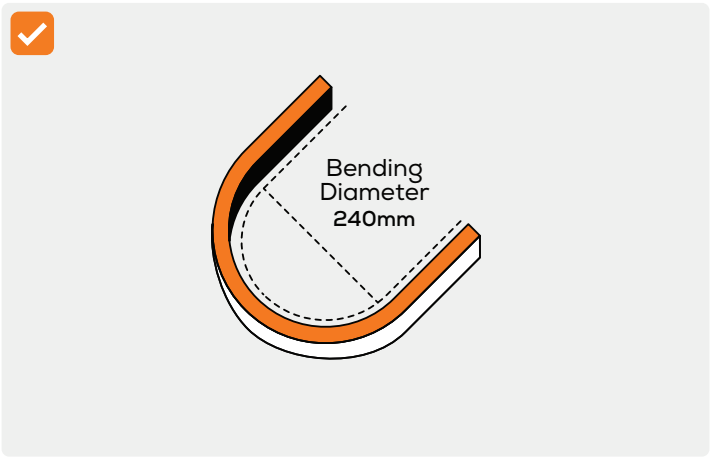
Handle With Care

Please ensure the Flow Side is not modified or converted than otherwise prescribed.



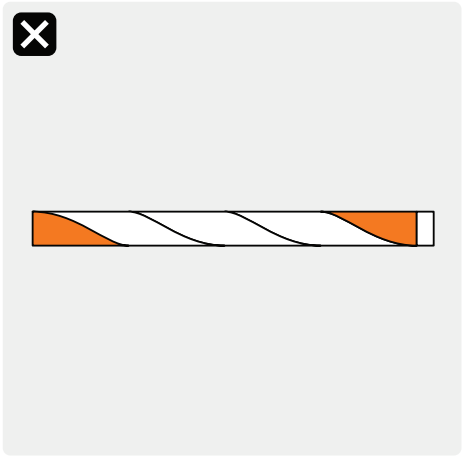
Only Bend To The Left or Right

Please ensure the Flow Plus Side is only bent to the left or right, as shown in the diagram above. Make sure this pre-determined bending direction is never changed.

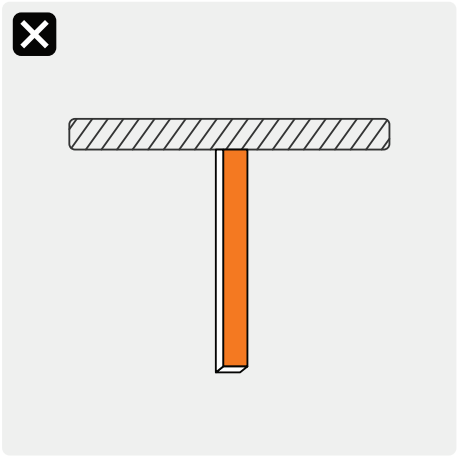


Do Not Exceed Maximum Bending Diameter

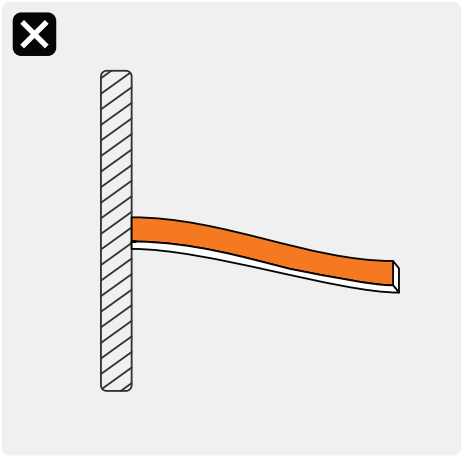
Please ensure the Flow Plus Side does not bend tighter than the maximum bending diameter of 240mm.



Do Not Twist



Do Not Let It Hang



Do Not Let It Sag

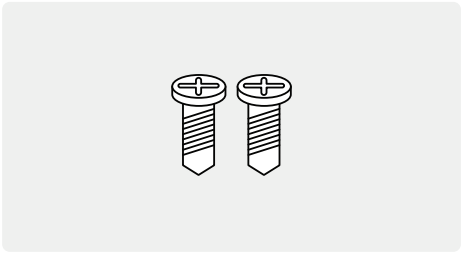
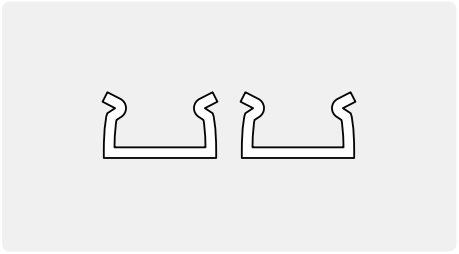
FLOW PLUS SIDE STRAIGHT ENTRY

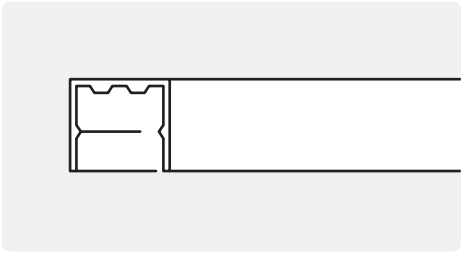
What You Need Per Meter For Installation



2x Screws

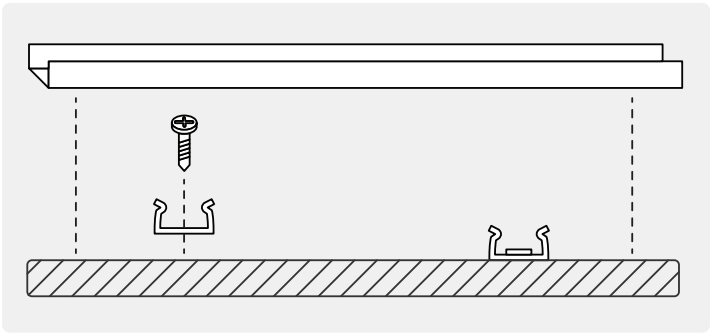


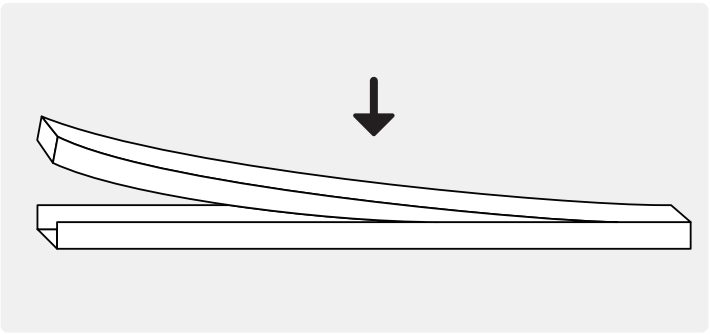
2x Mounting Clips



Aluminium Profile

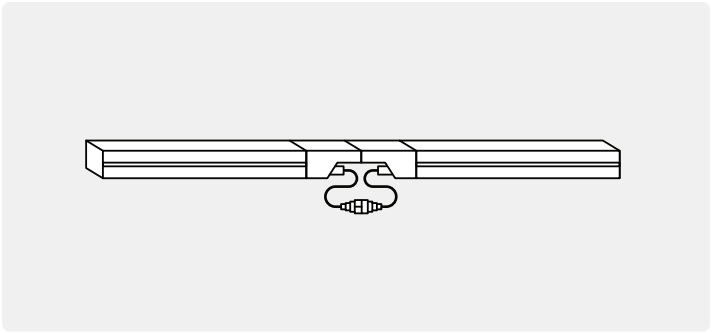
Installation Instructions



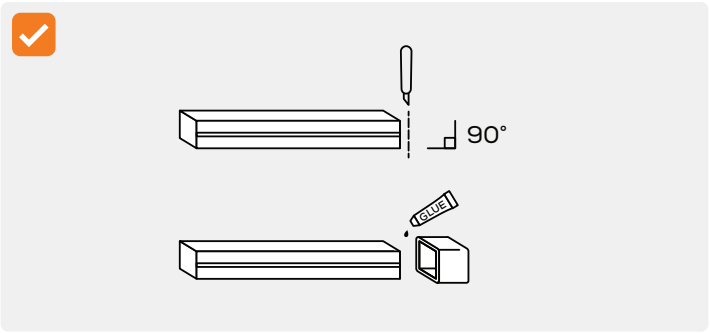


Press gently with palm of hand along the length of the strip. Do not use fingers to press in.

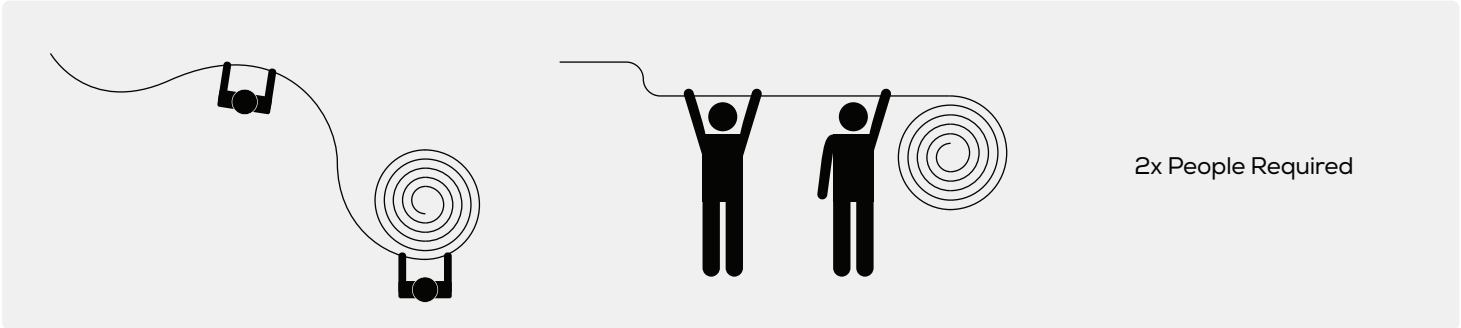
Extra Information



Straight configuration provides a seamless connection between two strips.



Please ensure the Flow Plus LED Strip is cut appropriately, and is properly sealed afterwards. Do not use scissors to cut strip.



2x People Required

The Flow Plus requires two people for the installation process, to ensure no damage or tangling occurs.
